Premier Configuration Options

Enhance your myStaffingPro® system with premier recruiting, qualification, tracking, hiring, access, and integration. Our premier configuration options provide a higher level of sophistication for your advanced hiring process.

Recruiting

Ad Feed

Seamlessly post job openings to sanctioned job board(s) without logging into another system.

Ad Tracking

Track the response rate to newspaper ads and custom recruiting events.

Candidate Self-Scheduling

Manage high-volume scheduling needs by establishing dates and times for candidates to self-schedule.

Community Outreach/External Recruiter

Increase your recruiting reach by sending job openings to all your sourcing contacts with one click.

Internal Candidate Process

Accept and qualify internal applications through a separate internal portal and process.

Multi-Location/Map-Driven Candidate Portal

Display the geographical scope of openings with an interactive map display.

Resumé Mining

Import your sourced resumés into myStaffingPro with a record of your search criteria.

Qualification

Automated Phone Interviews

Automate the phone interview process with interactive voice response (IVR).

Custom Application Builder

Build a custom application with fields that you specify.

Interview Guide

Launch, administer, and record your phone interview notes with a systematic guide.

Phased Application Builder

Create a tiered application process and invite qualified candidates to complete the second phase at a subsequent time.

Questionnaire Translation

Deliver the online application process in multiple languages.

Tracking

Hiring Manager Feedback Fields

Set a standard metric for hiring managers when providing candidate feedback.

Reason Codes

Ask users to select from a predefined list of reasons for updating a candidate's status.

Status Progression

Create a designated candidate workflow to prevent users from omitting a crucial step in your hiring process.

Hiring

Offer Approval

Provide decision makers and candidates with an easy way to review and approve an offer electronically.

Onboarding with Electronic Signature

Enable candidates to electronically sign and submit certain new hire documents.

User Access

Hiring Manager/Recruiter Access Level

Flag users as hiring managers or recruiters and limit their access to their assigned candidates and requisitions.

Vendor Portal

Supply vendors with limited access to submit candidates and review requisition(s).

Integration

Assessment

Use a proven assessment to screen for the best candidates.

Background

Unify the background submission process with an electronic workflow.

HRIS Export

Export new hire information from myStaffingPro into your HRIS/payroll system.

Microsoft Dynamics® GP Integration

Eliminate duplicate data entry into Microsoft Dynamics GP with seamless data integration.

Video Interviewing

Reduce costs and scheduling conflicts with online video interviewing.

WOTC

Determine eligibility and print completed Work Opportunity Tax Credit (WOTC) forms.
